Central stock & worldwide shipping

- Extensive standard stock range with over 150 types of fender profiles and bumpers available
- European quality to be supplied worldwide with short lead times

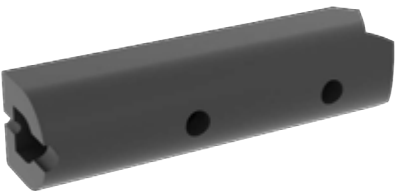

Cutting services

- All profiles to be cut to length or bevelled and provided with chamfered ends

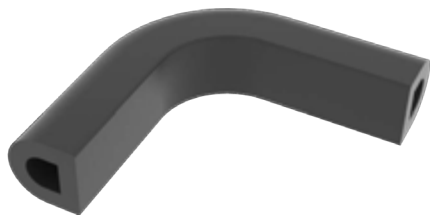

Drilling services

- For easy mounting profiles to be supplied with predrilled holes

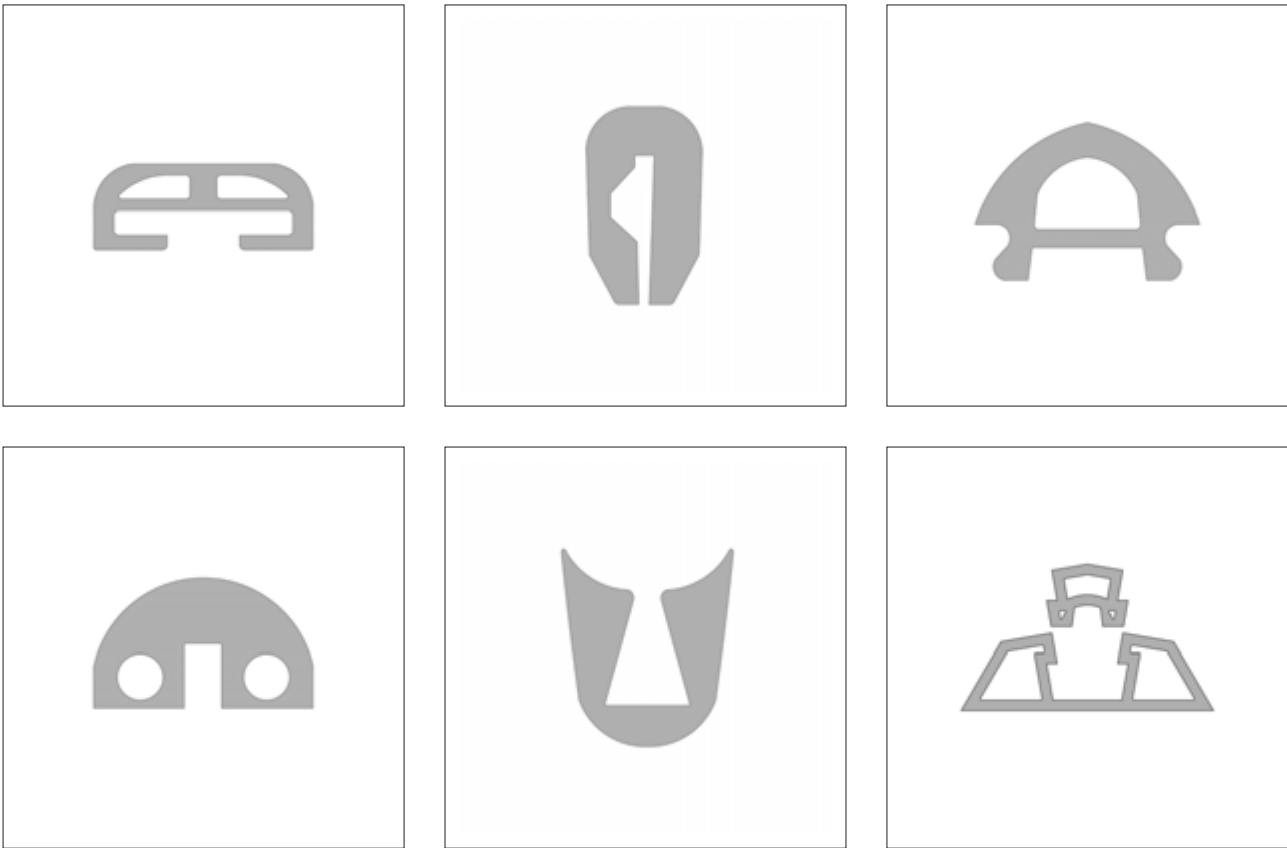

Pre-curved cornerbends & corner pieces

- Most type of profiles to be produced according to requested radius
- Corner pieces to be glued to specification

Bespoke profiles made to order

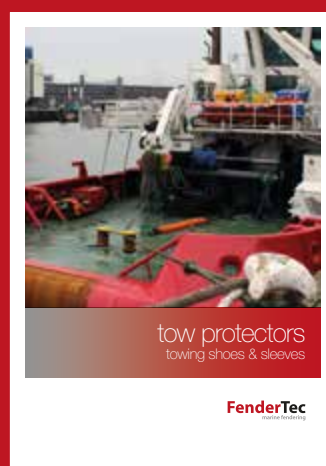

- Bespoke profiles to be produced according to customer drawing and specifications

Profiles in color

- All profiles on stock in standard color black
- Certain stock profiles available in non-marking color grey and white
- Specific colors to be produced according to customer requirement
